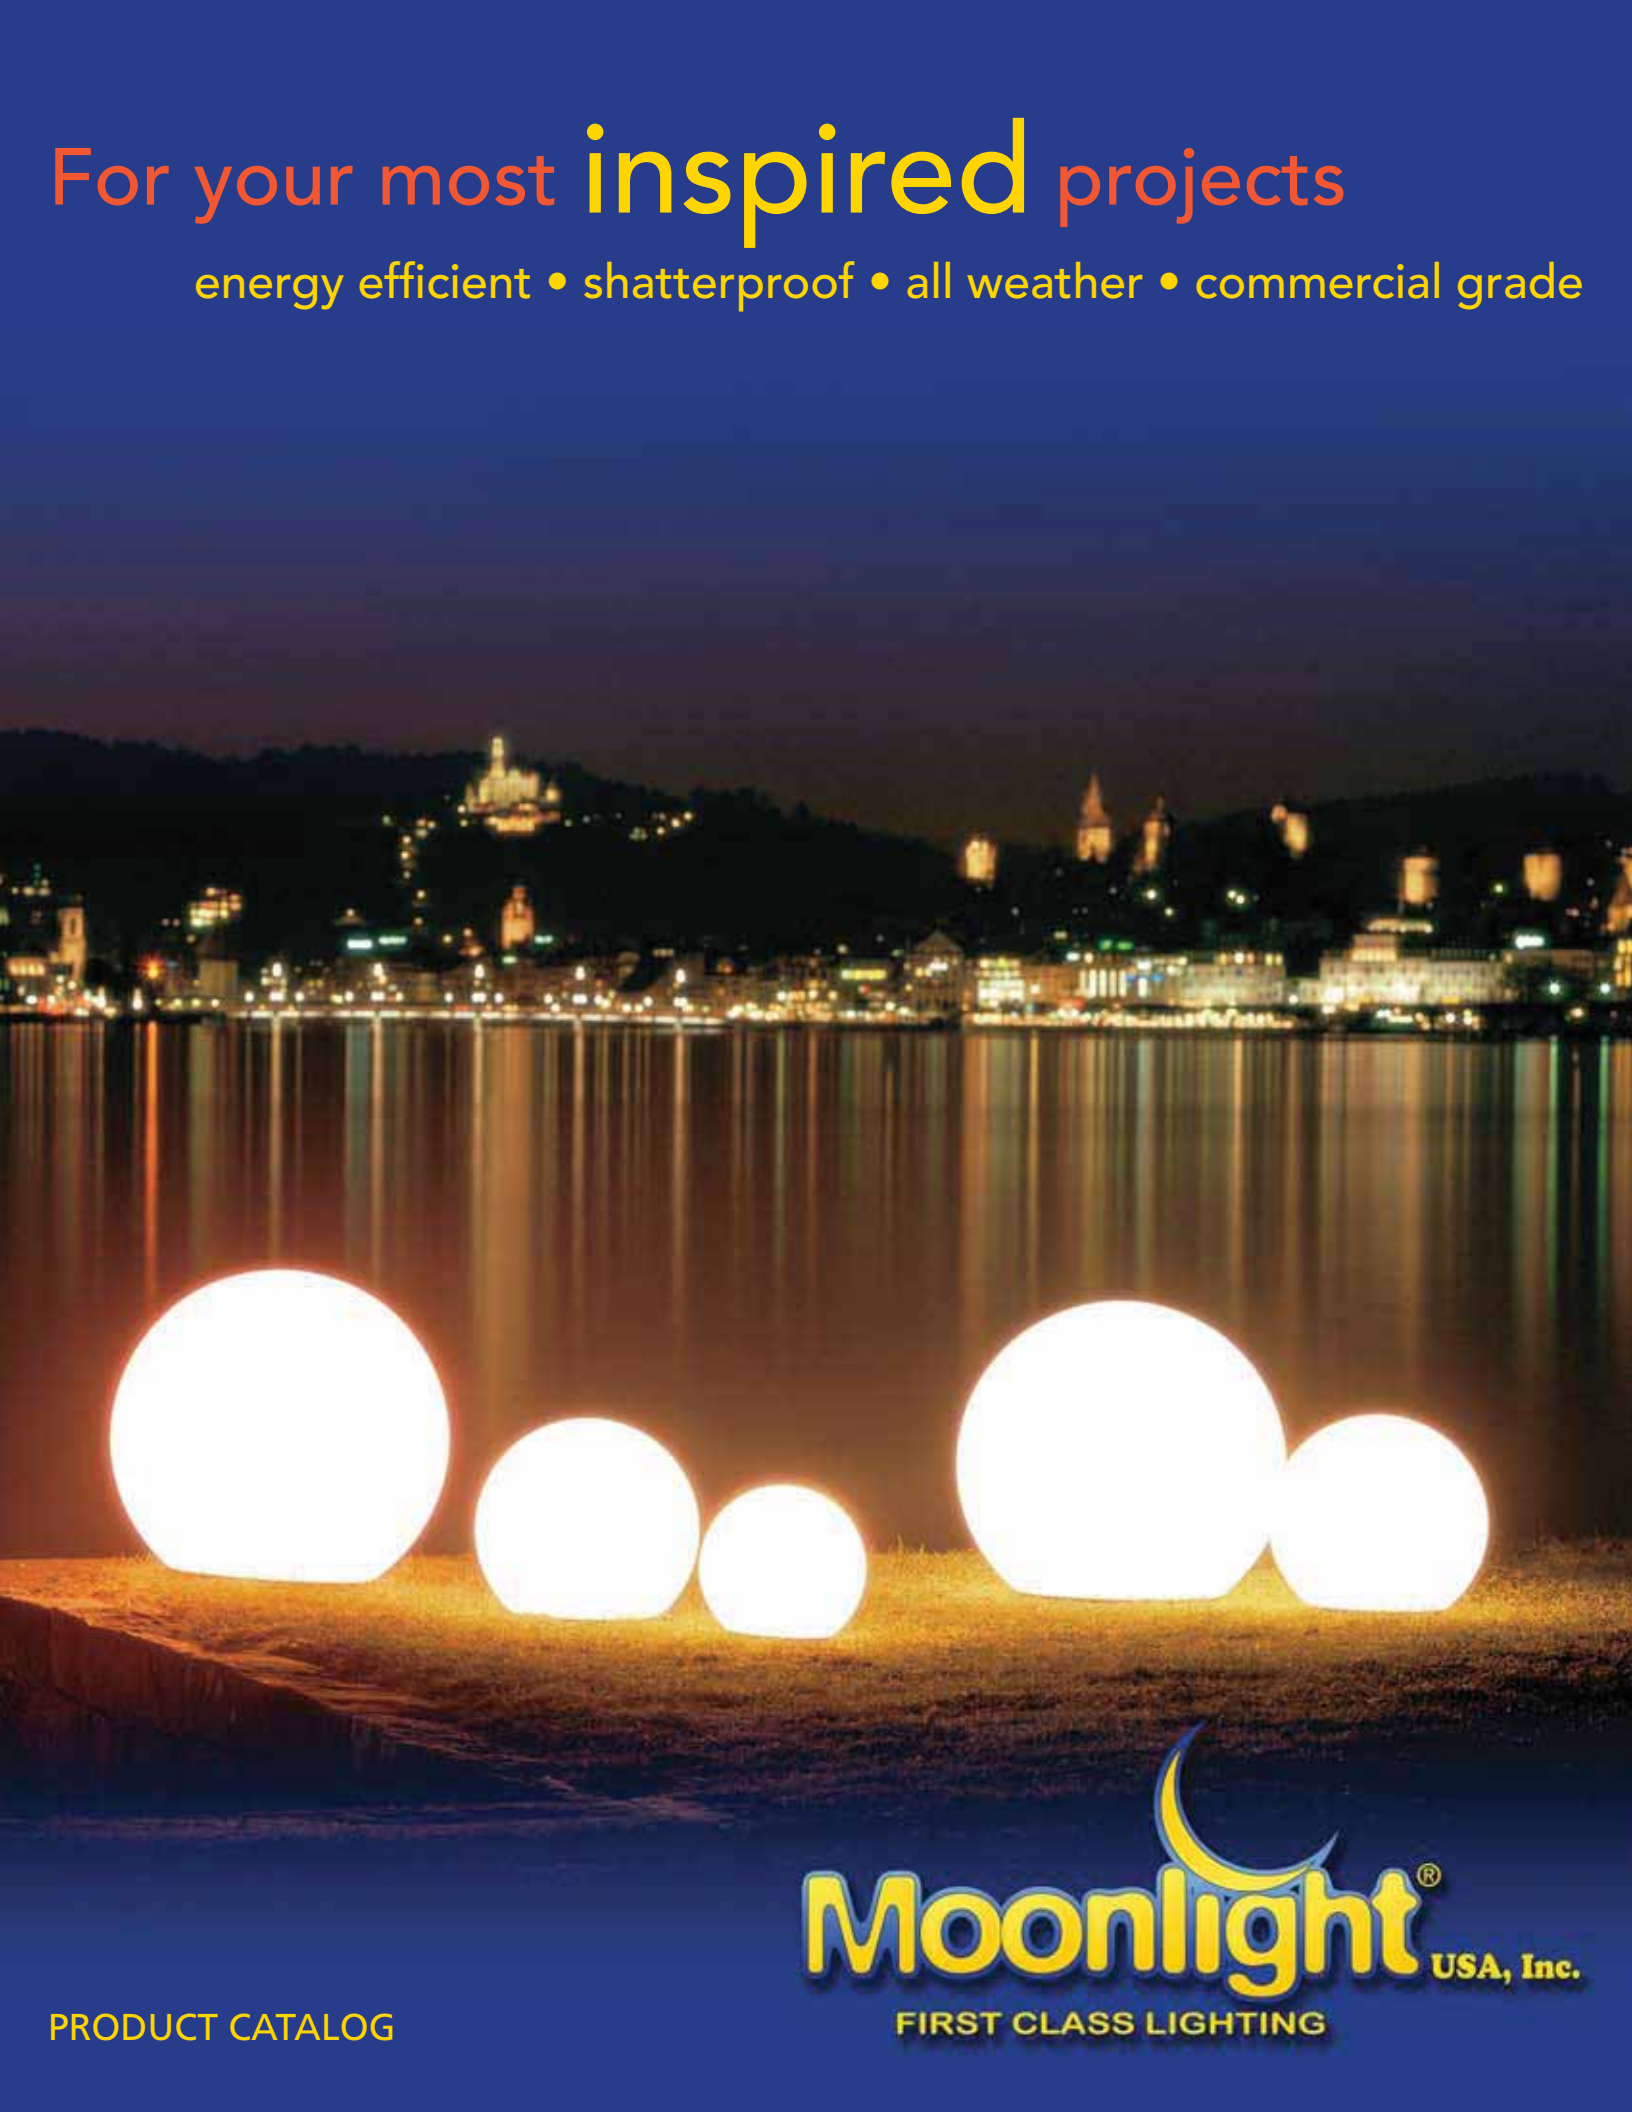
For your most inspired projects

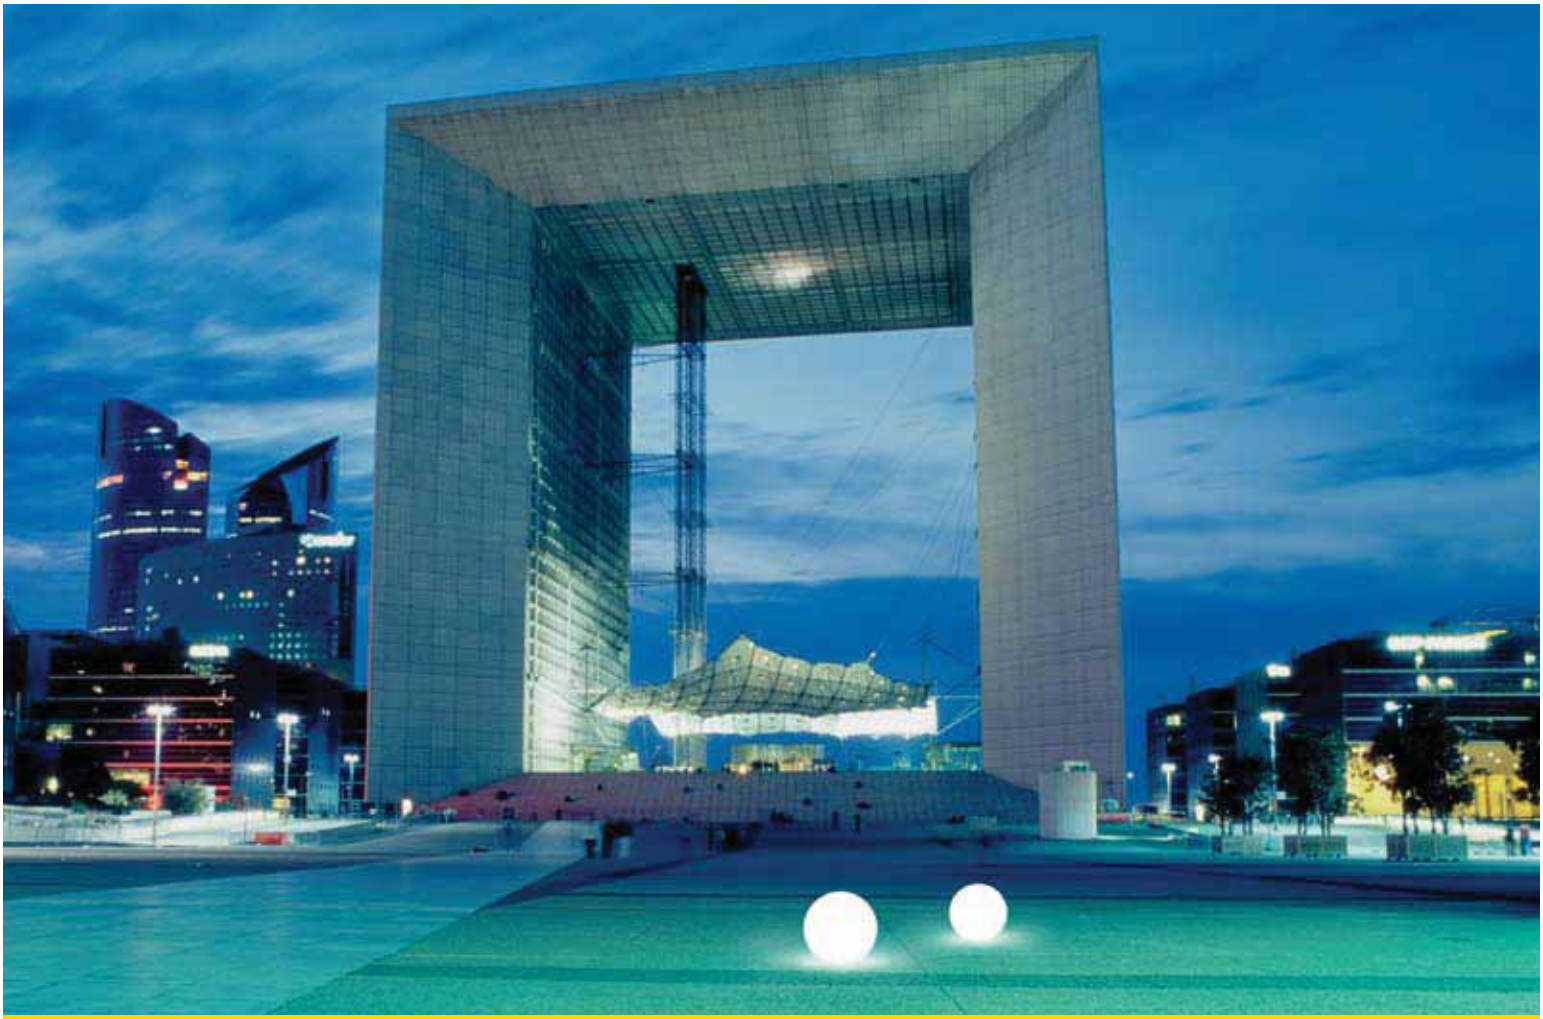
energy efficient • shatterproof • all weather • commercial grade



Moonlight® USA, Inc.

FIRST CLASS LIGHTING

PRODUCT CATALOG



Moonlight® Globe Lights are shatterproof spheres from 10" to 30" in diameter that create an elegant ambience for interiors and landscapes.

Engineered, developed and manufactured in Germany, Moonlight® has won numerous design awards and has received some of the lighting industry's highest ratings for resistance to damaging elements like moisture and dust intrusion.

Designed to stand up to commercial applications, Moonlight® Globe Lights are also perfectly suited for applications using standard 120v power.

Moonlight's versatile product line can accommodate every use you can imagine:

- Floating for use in a lake, pool or fountain
- Security and landscape lighting
- Portable as an indoor/outdoor lamp
- Suspended from a ceiling, tree top or roof eaves as a pendant light with or without sound
- Speaker Globes for indoor/outdoor light & sound in one unit
- Cordless battery operated for large scale events where hard wired power is impractical.

Moonlight® Globe Lights have won eight European design awards since 1999.

Moonlight® Full Globe is our most popular style of globe. Consisting of a sphere with a hidden flat bottom for stability, this globe appears as full globe from above. The hidden base allows the globe to rest safely on any surface. Mounting bases for permanent indoor/outdoor installation are available. Mount directly to a surface as you would any fixed light, Surface mount is for a wall, ceiling, exterior hard surface, pool deck, dock piling, etc. Available in white, daylight colors and stonelook colors with interchangeable color filters, with or without remote, in sizes from 10" to 30" in diameter.

Moonlight® **Filter System**

Easy as 1-2-3! Place the filter ring over the bulb socket, screw in the CFL bulb then slide the filter over the bulb and twist-lock into place. Filters are quick and easy to change and can turn your standard white globe to any of 24 different colors when illuminated.

Moonlight® **Accessories**

Actual Size

Cocktail Table Top discs are available for 22" and 30" globes. Made of crystal clear acrylic, the center has a specially mitered cut and silicone grip to hug your Moonlight securely.

Add a remote control and enjoy easy operation from far away. Floating globes, surface, landscape, pendants and portables have remote receiver options. Multiple globes can be operated from one control.

Moonlight® CFL Bulbs are made to fit with Moonlight's Filter System to provide a gorgeous, energy efficient light. AC and DC bulbs are available.

Moonlight® Globe Cleaning Kit cleans and polishes your Moonlight Globe. Use the special cleaning solution and pad once or twice a month.

Moonlight® Tools Some globes require special tools including our floating, pendant and landscape globes. Special wrenches and ground anchors are available.
